Permit Applicant: Joint Expeditionary Base Little Creek Fort Story

Facility Name and Location: Joint Expeditionary Base Little Creek Fort Story (JEBLCFS), 2600 Tarawa Court, Suite 100, Virginia Beach, VA 23521

Project description: The JEBLCFS initially applied for an Emergency Permit on November 21, 2011, to store and treat hazardous waste materials stored in Building 106 in the JEBLCFS Facility, located in Virginia Beach, VA, 23521. The hazardous waste consisted of one (1) pint of liquid Tetrahydrofuran (THF), which had the RCRA hazardous waste numbers or codes of D001, Ignitability, U213, and possibly D003, Reactivity, due to the age of the material. The hazardous waste was managed, and transported under controlled and secured conditions by qualified personnel, and was treated by qualified personnel by detonation in an outside area at the end of a cul-de-sac at the end of Knox Road South, which is in close proximity to Building 106. In an emergency situation, the DEQ issues the Emergency Permit to allow a facility to manage hazardous waste as a result of an emergency situation and/or to be protective of human health and the environment.
